

Colin Maddox - Valuing Seniors in our Community

The subtopics/questions for discussion include:

- What can we do to challenge ageist language in self and others?
- What are positive stories on older people?
- How can we shift historical cultural disrespect for elders? How do we change negative behaviours of this around us?
- Are there practical tools we can develop to address the value seniors bring to our community?
- What can be done to engage in intergenerational actions? Other ideas or actions?
