

The U3A Sunshine Coast Bush Walking Group

The U3A Bushwalking Group meets monthly on Tuesdays. This week, the group took the Dalchara National Park walk. John Oakhill is the group guide and has been taking hikers on some challenging walks for 2 years. This week's walk took approximately 3 hours but can take up to 3 ½ hours and although the track is well maintained there are some tricky spots.

Members with some walking experience should be able to participate on most walks. John usually decides where to walk each month and the group can also offer ideas and destinations. The distance and fitness levels are provided prior to each walk and a coffee at the nearest café at the end of the walk is a great reviver. Further information for Bushwalking Group 20MIS109 can be found on our website
